FEEDING DIRECTIONS

Key All Natural Sow Lactation is a complete feed specially formulated to meet the nutritional requirements of sows in the lactating stage. Daily feeding rates will depend largely on achieving individual body condition goals for lactating sows. Feed 2 lbs to 8 lbs per head per day from farrowing to day 3 and increase feed from 10 lbs to 18 lbs per head per day on day 4 to the weaning stage. Provide plenty of fresh clean water at all times. For a more specific feeding program, please contact your Keystone Mills Feed Consultant.

WARNING: Contains copper, do not feed to sheep or other related species.

CAUTION: Do not feed supplemental selenium in excess of 0.3 ppm in the total nutritional diet.
