Processed Grain By-Products, Corn Fine Dairy, Plant Protein Products, Molasses Products, Calcium Carbonate, Hydrated Sodium Calcium Aluminosilicates, Salt, Mono-Dicalcium Phosphate, Potassium Chloride, Maxi Bond, Magnesium Oxide, Plant Protein Products, Roughage Products, Vitamin E Supplement, Zinc Sulfate, Manganese Sulfate, Ferrous Sulfate, Copper Sulfate, Chromium Tripicolinate, Sodium Selenite, Ethylenediamine Dihydroiodide, Saccharin Sodium, Vitamin A Acetate, Vitamin D3 Supplement, Cobalt Carbonate, Active Dry Yeast (*Saccharomyces cerevisiae*), Dried *Enterococcus faecium* Fermentation Product, Dried *Lactobacillus acidophilus* Fermentation Product, Dried *Lactobacillus plantarum* Fermentation Product, Dried *Lactobacillus brevis* Fermentation Product, Dried *Bacillus lentus* Fermentation Product, Dried *Bacillus subtilis* Fermentation Product, Dried *Aspergillus oryzae* Fermentation Extract, Dried *Trichoderma longibrachiatum* Fermentation Extract, Salt of Glutamic Acid.

FEEDING DIRECTIONS

Feed Key Heifer 18% Pellet R with good quality forages and/or roughages to meet the nutritional requirements of dairy replacement heifers. Free choice salt may be provided in a mineral feeder. Provide plenty of fresh clean water at all times. For a more specific feeding program, please contact your Keystone Mills Dairy Consultant.

CAUTION: Do not feed supplemental selenium in excess of 0.3 ppm in the total nutritional diet.

CAUTION: A withdrawal time has not been established for pre-ruminating calves. Do not use in calves to be processed for veal. Do not allow horses or other equines access to formulation containing Monensin. Ingestion of Monensin by equines has been fatal. Monensin medicated cattle feed is safe for use in cattle only. Do not exceed the levels of Monensin recommended by the feeding directions, as reduced average daily gains may result.
