FEEDING DIRECTIONS

Pilgrim's Path Layer 222 is a complete feed specially formulated to meet the nutritional requirements of laying hens. Feed as the sole ration to hens, in the second laying phase, from 30 to 40 weeks of age. Provide plenty of fresh clean water at all times. Oyster shells may be offered as free choice in a separate feeder. Feed, water, light, temperature and air quality are all important factors in the growth, production and success of your birds. For any questions concerning your feeding program, please contact your Keystone Mills Feed Consultant.

CAUTION: Do not feed supplemental selenium in excess of 0.3 ppm in the total nutritional diet.
